

The RAD Wizard

Access

To access the RAD (Rapid Application Development) wizard, select an interactive Visual Adelia program from the OBM (Object Manager), then click the [SSG/Batch/RAD](#) button.

The wizard contains a number of windows:

- [Window presenting information on the program that will be built](#)
- [Window for selecting the scenario](#)
- Window for selecting entities
 - [RAD - Selecting Entities \(Primary Entity/Secondary Entity\) - "Joins" Tab](#)
 - [RAD - Selecting Entities \(Primary Entity/Secondary Entity\) - "Logical Entities" Tab](#)
 - [RAD - Selecting Entities \(Single Entity\)](#)
- Window for selecting the graphical representation
 - [RAD - Selecting the Graphical Representation \(Primary Entity/Secondary Entity\)](#)
 - [RAD - Selecting the Graphical Representation \(Single entity\)](#)
- [Window for defining the program - "General" tab](#)
- [Window for defining the program - "List" tab](#)
- [Window for defining the program - "Form" tab](#)
- [Window for defining the program - "Additional entities" tab](#)
- [Window for starting the RAD development.](#)
- [Last window](#)
